Entered according to Act of Parliament at the Department of Agriculture at
Ottawa, 1903 by N. J. Porter, Photographer, Moose Jaw, Assa.

MOOSE JAW, 398 miles west of Winnipeg on the main line of the Canadian Pacific Railway, is pleasantly located in a dip in the prairie at the junction of the Moose Jaw and Thunder Creeks. It is a divisional point of the C. P. R. and the terminus of the Soo line, and the Railway terminus of the Prince Albert Branch line.

The Town Council are preparing to put in a system of water works, sewerage and Electric lights at an estimated cost of one hundred and fifty thousand dollars. Moose Jaw has the proud distinction of establishing the first public school in the territories and to-day maintains one of the largest and best equipped schools in the North West. Rural schools are established throughout the district on request of Settlers.

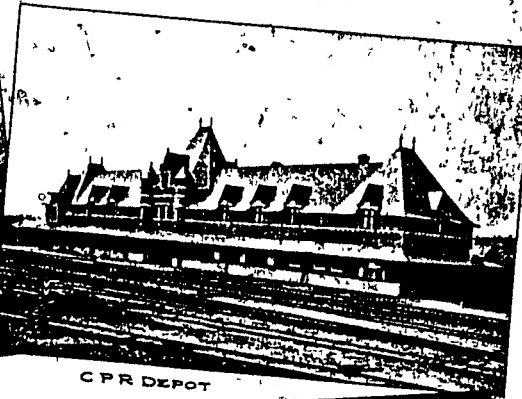

The town can boast of the most finely equipped flour mills in the territories, with a capacity of 250 barrels per day.

Situated in the heart of a large and populous agricultural and ranching district, it is destined to become one of the finest cities of the West. Population 2500.

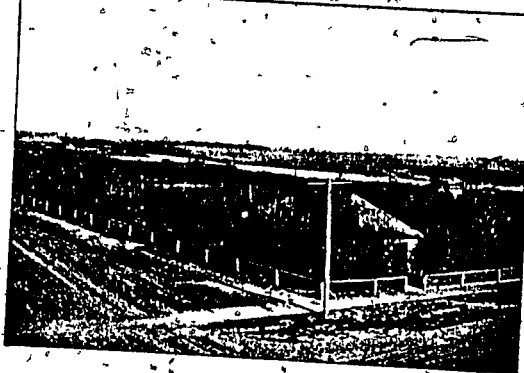

The soil is a heavy clay of great depth, and yields large crops of wheat and other small grains. Stock raising is carried on extensively to the South and West where there is an abundance of hay and water.
